„hands-free“

Footwear electrode for separate
shoe testing
Dimension: 350 x 500 mm

The Personnel Grounding Tester PGT®120 is a wrist strap and footwear tester for access control of ESD protected areas (EPA's)

- The test result is indicated with audible and visual signals. A relay with a dry contact provides the connection to a door opening system
- Power supply: Internal battery or external power supply unit
- Wrist strap, right and left shoe testing is simultaneously possible by separate measuring circuits
- In combination with a barrier gate, the footwear measurement can be performed in series without pressing a button (hands-free mode).
- Separate measurement of left and right shoe
- Lower limit disabling is possible
- The unit can be used on bench tops or as a wall mounted unit (Wall mounting requires an additional wall mounting plate)
- Adjustable limits and specific functions through 12 dip switches

Includes:

PGT®120 unit, footwear testing electrode, operating instructions (english/german), Calibration Certificate, 9 volt battery and 230 VAC / 12 V power supply
