

Starterkit for testing conductive and dissipative surfaces and electrostatic fields/surface potentials

Includes:

- SRM®200
- EFM®51
- conductive carrying case

IEC
EN

Part Nr.

7100.SRM200.SK51 SRM®200/EFM®51 Starterkit

VERIBOX

Metrizo® B530

- The veribox contains resistors for the verification of high resistance tester before use
- 3 different resistors with 3 separate test sockets

Part Nr.

7100.VB2 Veribox
